Mr Harold Weisberg

Dear Harold,

I concur with your analysis "Of The New Orleans Probe".

Did you and Salandria actually have to talk Garrison out of acting on "Bolden's" information?

The reports of Bailey's "evidence" in Forgive My Grief III were absurd to the point of parody.

It has come to my attention that Putnam will publish A Heritage of Stone, Garrison's own version of his Assassination investigation in the fall.

I do hope that you find a publisher but this development would be a serious impediment.

A general (if related) book would be the best "property".

Sincerely,
